

Employment: Program License Type by Region

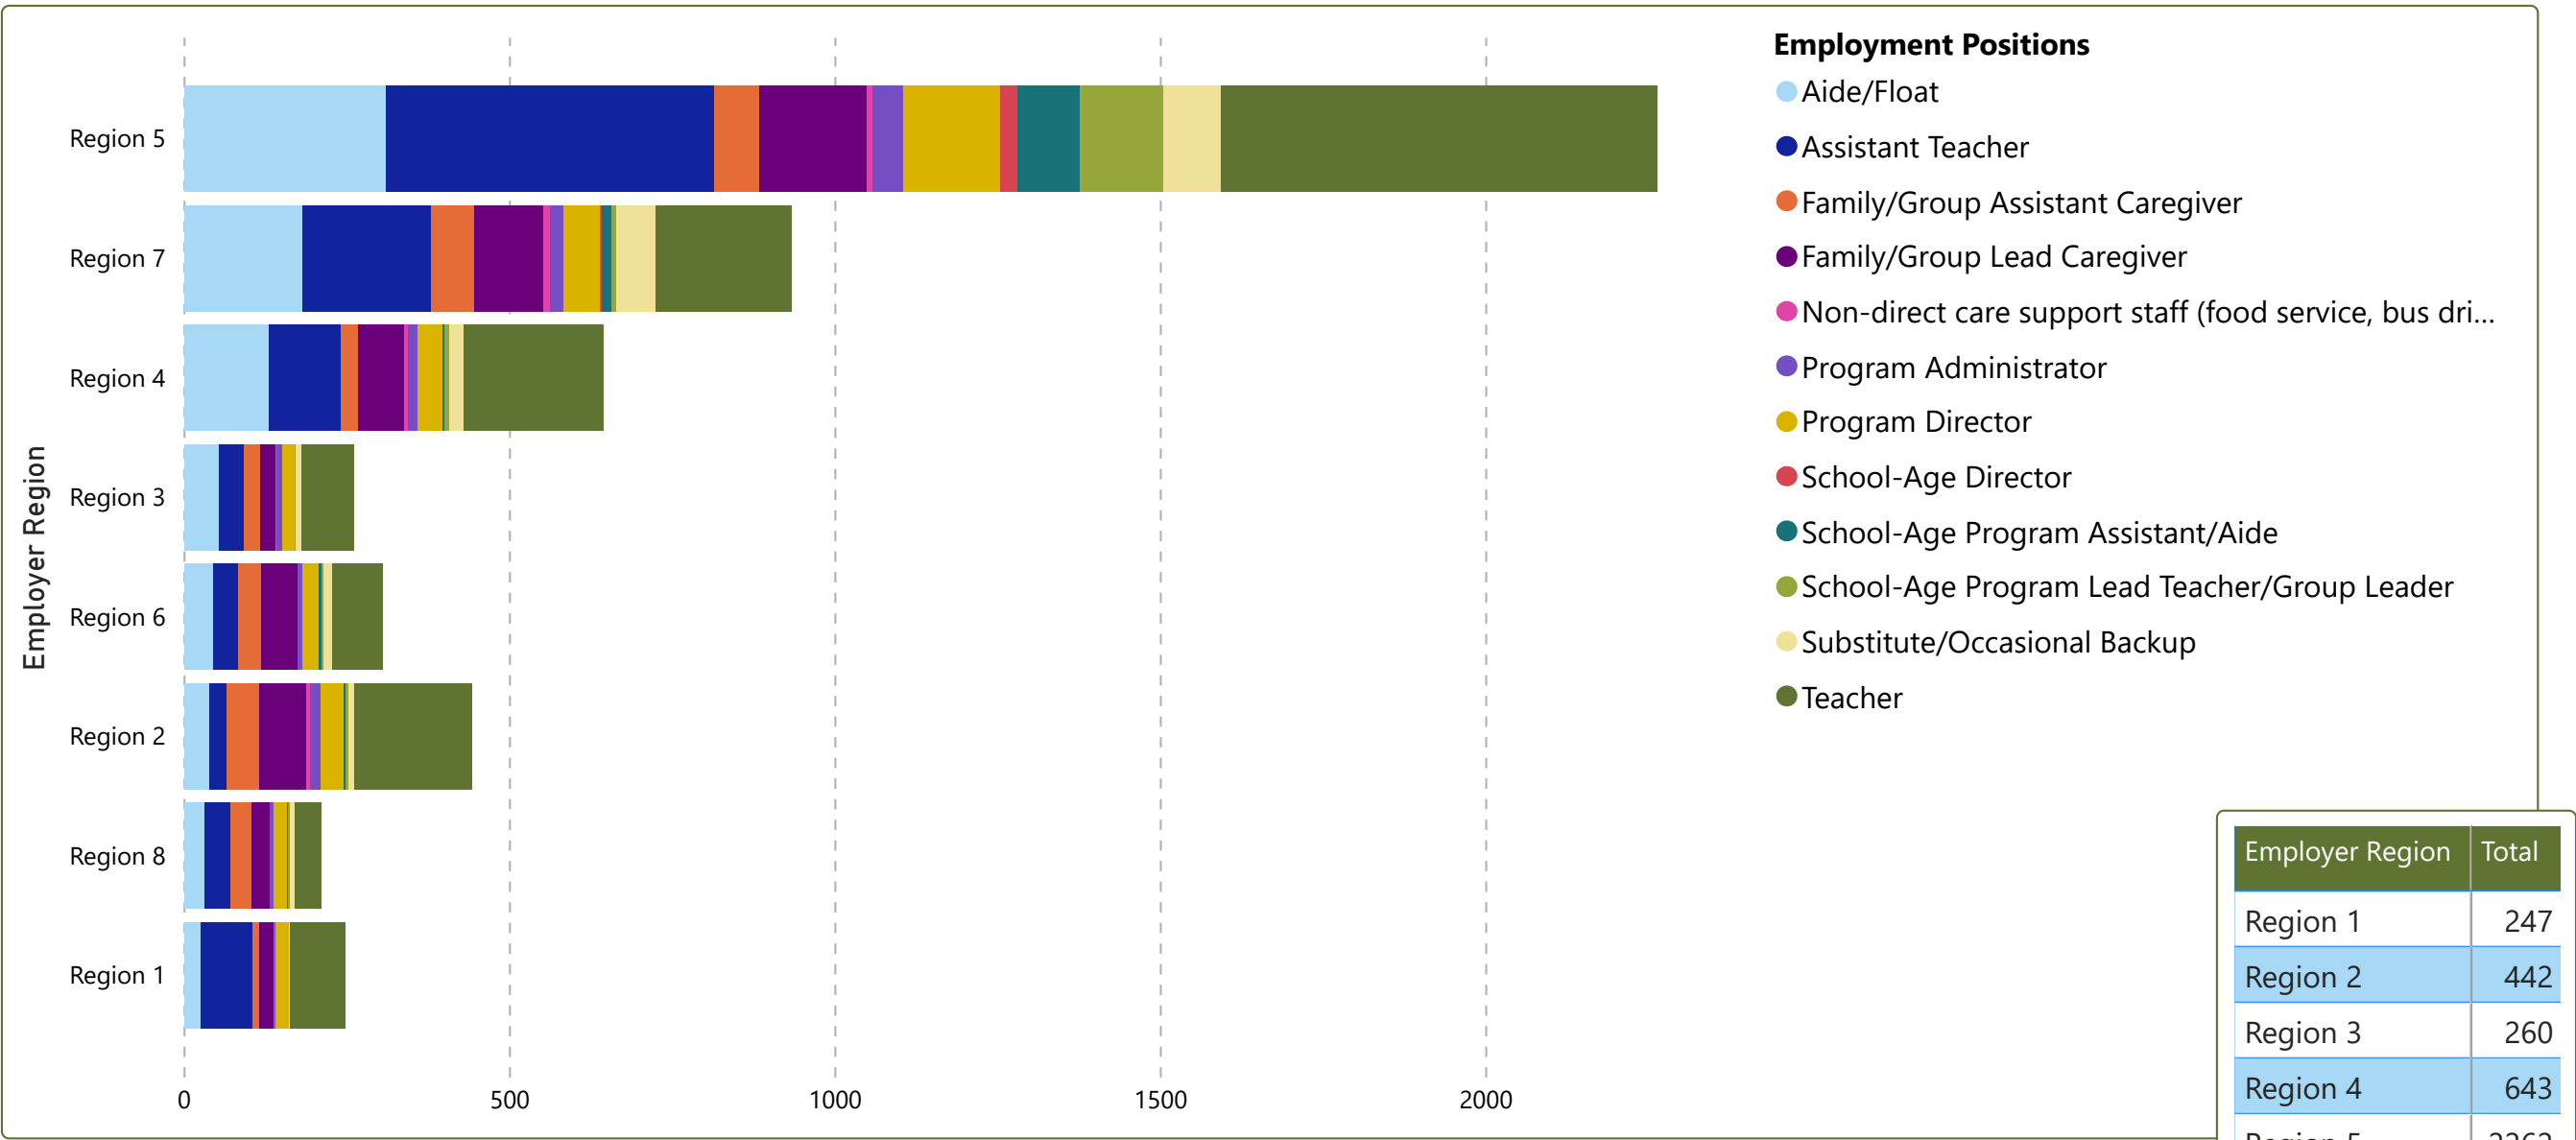

3rd Quarter 2022

This report shows employment by the program types where individuals are employed and the positions they hold in those programs. The data includes all individuals who had a current Growing Futures membership and verified employment by program, region, and position during the reporting period.
 NOTE: The total number of accounts factored in the report is less than the total number of current members because not all member accounts include verified employment and position in a licensed childcare program.
